BMSE

BMLC

Red & Blue Lights

Support red & blue flashing lights and sound alarm

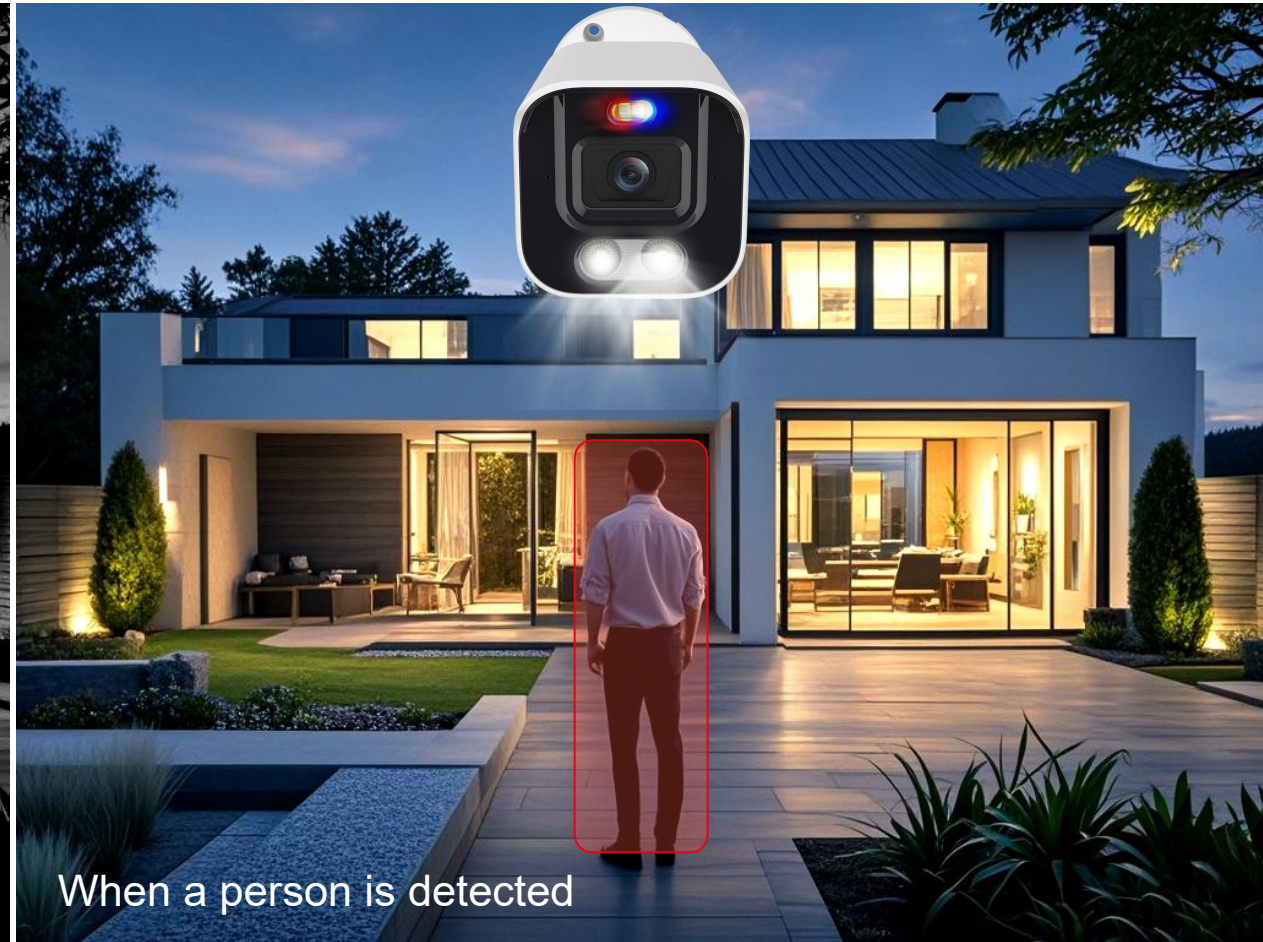

Warm Light

Support dual supplement light mode

Smart Night Vision

In the smart night vision mode, it automatically switches to full color night vision when a person is detected.

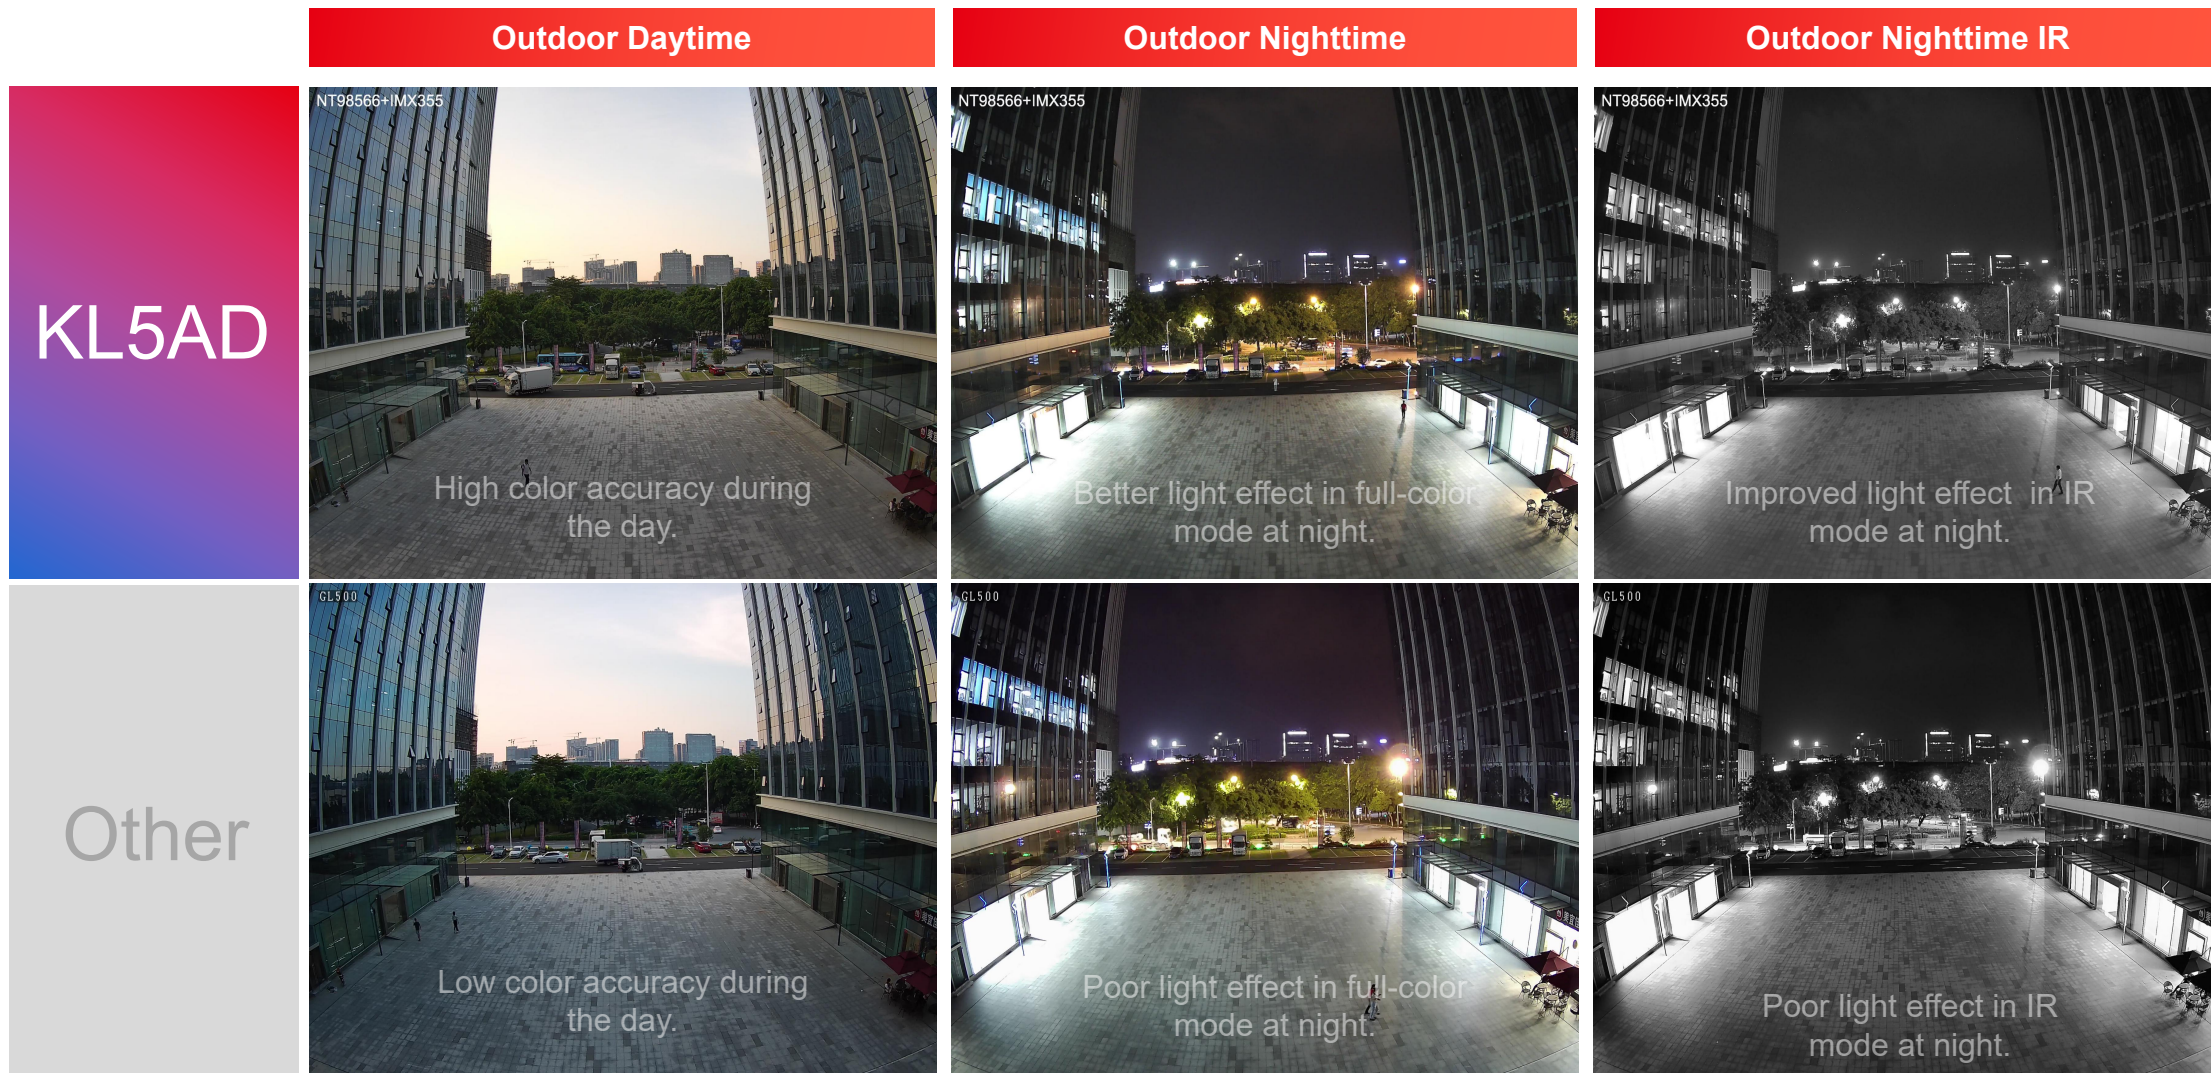

Smart Analytics

Support two-way audio, real-time communication and remote monitoring. Customizable sound alarms for warning or reminder purposes. Provide safer and smarter monitoring and alerting solutions.

Test Effect Comparison

With the same environment and pixels, the KL5AD scheme has obvious advantages in light and shading treatment

Two Way Audio

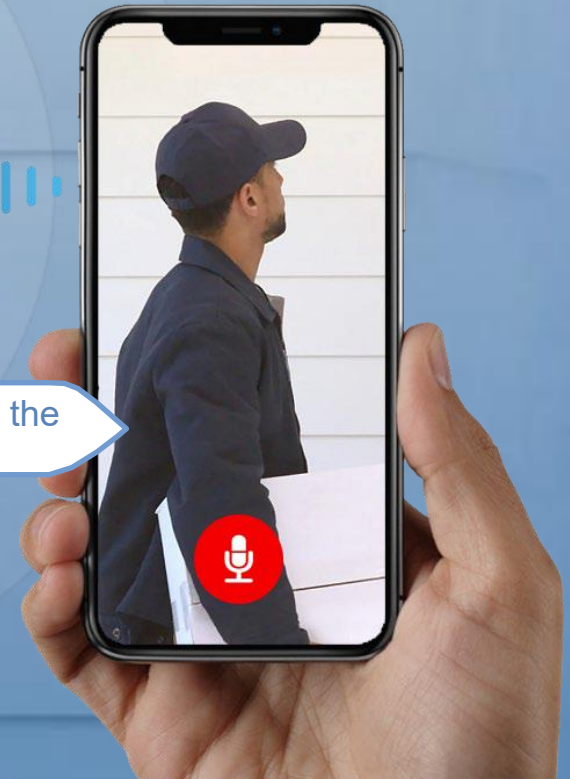

Support built-in mic and speaker two way audio

You have a package.

Please leave it at the door, thank you!

H.265 Technology Efficient Transmission

The latest video encoding technology allows for smooth transmission of high-quality audio and video, while taking up only half the bandwidth and storage space.

50%

Occupying storage space
