Smart Hybrid Light

IR Mode

Warm Light Mode

Smart Mode

Pro Series

Chipset / Sensor	 SONY	
Resolution	5MP	8MP
Solution	BRL5RC	BRL8RC
Smart Hybrid light	IR + Warm lights support IR mode, warm light mode and smart mode.	IR + Warm lights support IR mode, warm light mode and smart mode.
WDR	WDR: 120dB	WDR: 120dB
POE	Internal POE	Internal POE
Audio	Built-in Mic	Built-in Mic
Alarm	√	√
Built-in Storage	NAND / EMMC(Optional)	NAND / EMMC(Optional)
SD Card Slot	√	√
AI Function	Intrusion Detection / Line Crossing Detection / Enter Area / Leave Area (Based on Human and Vehicle Detection) Motion Detection / Loitering Detection/ People Gathering Detection (Based on Human Detection) Face Detection Coming soon: Line Crossing Count, Illegal Parking (based on vehicle shape and license plates), License Plate Detection, Abandoned Object Detection, Removed Object Detection, Heat Map	

Product Comparison

Sollution	FCV2RC / FCV5RC / FCV8RC	KL2RC / KL5RC / KL8RC	BRL4RC / BRL8RC
	 	 	 
Solution Brand (Processor + Sensor)	FullHan + GalaxyCore	NOVATEK + Sony	Rockchip + Sony
Pixels	2MP / 5MP / 8MP	2MP / 5MP / 8MP	5MP / 8MP
Images	Brighter colors	Higher color fidelity during the day, and more detailed processing in low light at night	5MP frame rate Support 30fps High computing power, support high-end projects
Lens	Fixed focus	Fixed focus, motorized zoom	Fixed focus, motorized zoom
Smart Analytics	Intrusion Detection (Based on Human and Vehicle Detection)	2MP: Intrusion Detection (Based on Human and Vehicle Detection) 5MP/8MP: Intrusion Detection/Line Crossing Detection/Loitering Detection/People Gathering Detection/Enter Area Detection/Leave Area Detection/Face Detection/Illegal Parking/License Plate Detection/Line Crossing Count/Heat Map/Abandoned Object Detection/Removed Object Detection/Scene Changes	Intrusion Detection/Line Crossing Detection/Enter Area Detection/Leave Area Detection/Line Crossing Count(based on human and vehicle detection) Loitering Detection/People Gathering Detection(based on human detection) Face Detection, Illegal Parking(based on vehicle shape and license plates) License Plate Detection, Abandoned Object Detection, Removed Object Detection, Heat Map

Smart Hybrid Light Features

Smart Hybrid Light Configuration

"Configuration" → "Image" → "Supplement Light Mode", including "Intelligent", "Warm Light" and "IR Light".

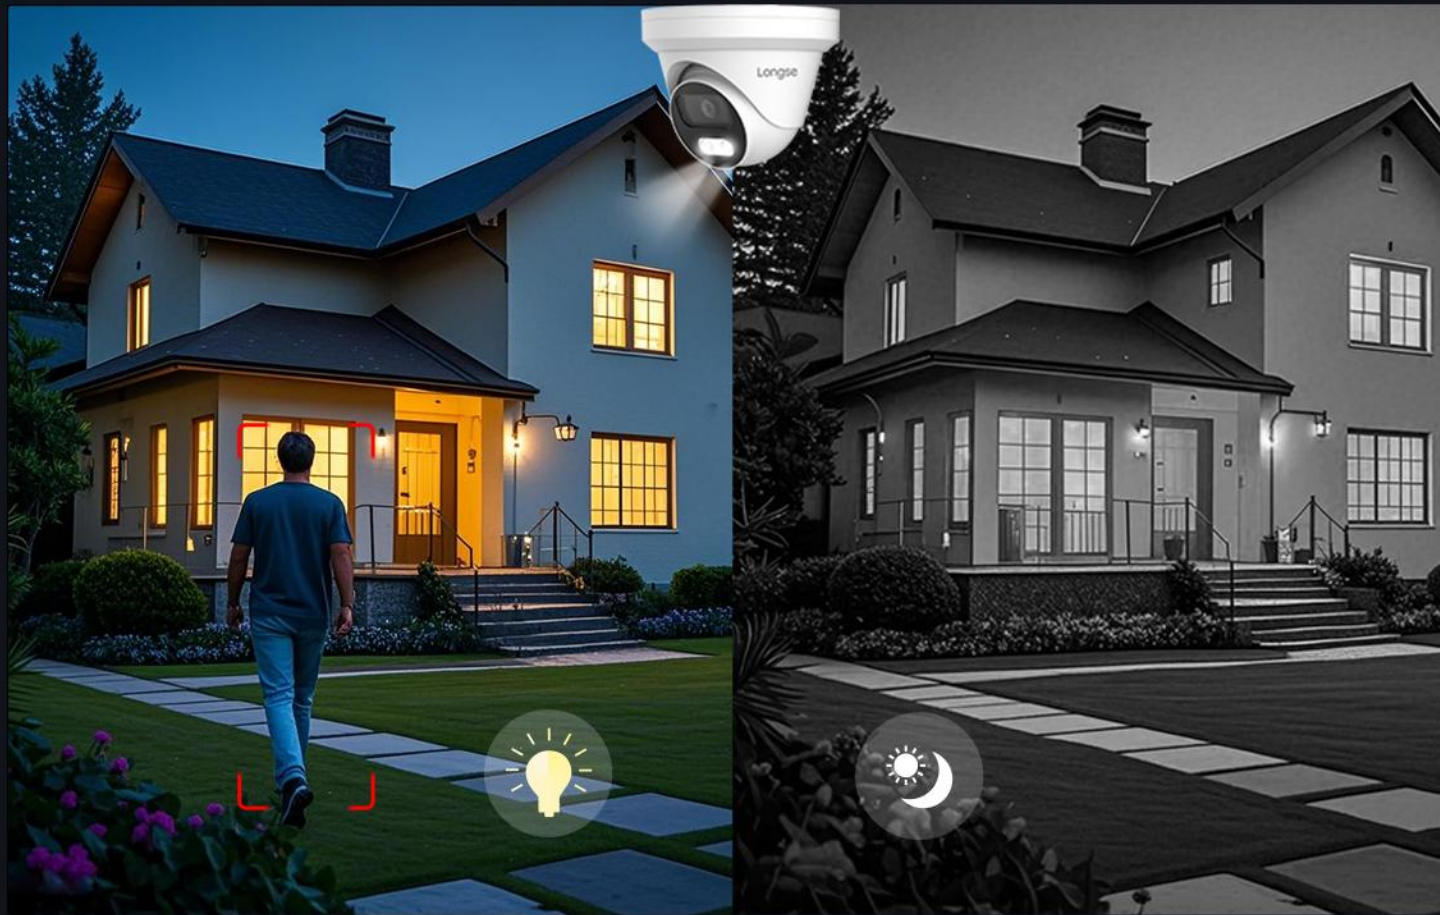

4K Resolution

Main Stream:

8MP@30fps/6MP@30fps/4MP@30fps/1080P@30fps/720P@30fps

Adjust for Day & Night Mode

Smart Mode

Upon detecting a person, the warm light turns on.
After 20 seconds, the infrared light turns on and the warm light turns off.

Warm Light Mode

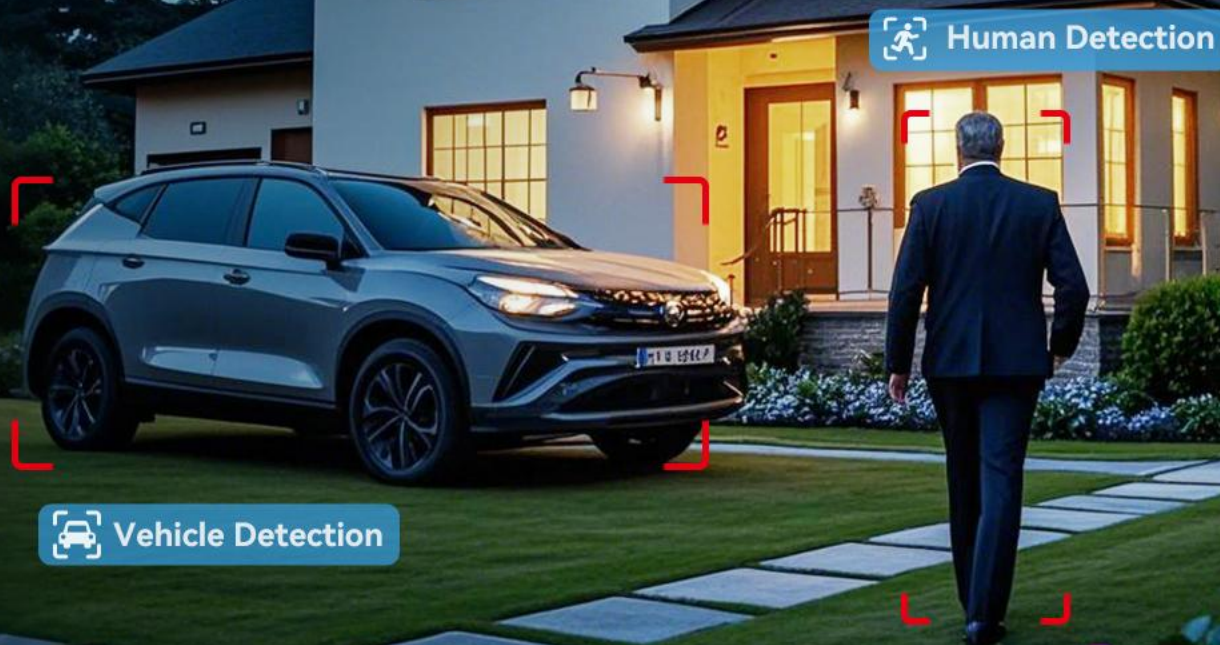

Full color night vision

IR Mode

The warm light
can be used as a light alarm.

Smart Analytics for Enhanced Security

Intrusion Detection / Line Crossing Detection / Enter Area / Leave Area (Based on Human and Vehicle Detection)

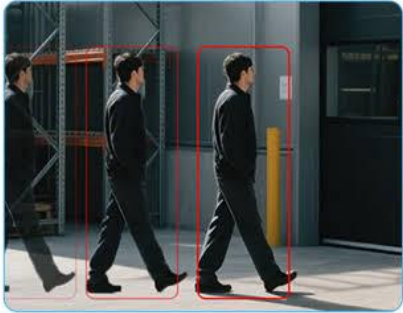

Motion Detection / Loitering Detection / People Gathering Detection (Based on Human Detection)

Face Detection

Perimeter Protection

Loitering Detection / People Gathering Detection (Based on Human Detection)

HDR Image Comparison

HDR OFF

only the building can be seen out of the window, the person in the room cannot see clearly

HDR ON

It can be seen in both light and darkness

When irradiated by a strong light source, the image quality is poor. WDR, image processing technology that enables multiple exposures of video images, providing the ability to capture delicate and clear images even under strong light sources.

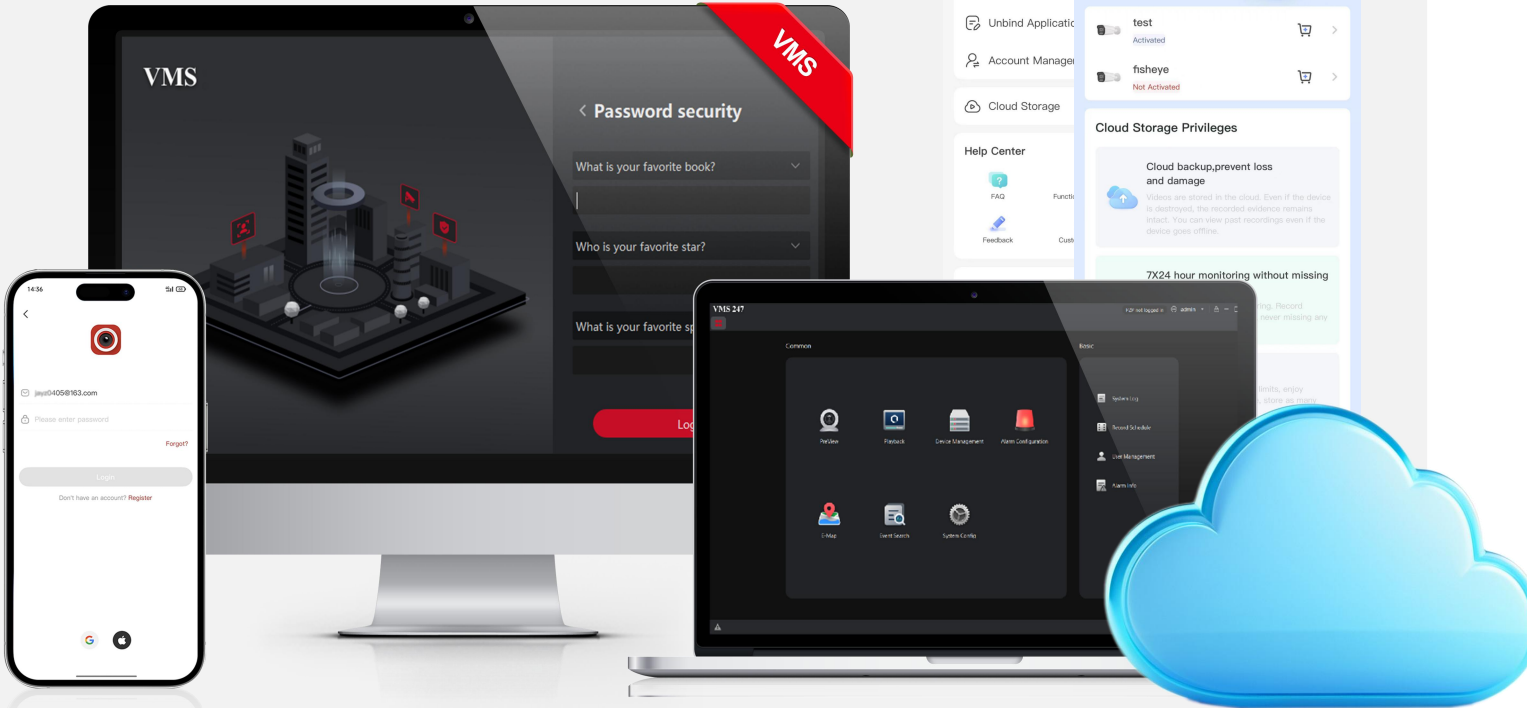

Multi-Platform Access

V247
(APP)

VMS

VMS247
(PC)

New Version

V247 (APP) Supports Cloud Services

The new version of VMS is more powerful and pairs with a more stable and user-friendly V247 application and value-added services, now supporting cloud service functionality for professional cameras. The V247 (APP) not only securely and conveniently stores important recordings in the cloud but also provides highly reliable data protection and flexible access methods, ensuring your data is always safe and worry-free.

Application Scenarios

RV1126, with its high computing power, is suitable for **high-end projects** such as smart city solutions, intelligent building systems, factory automation, and warehouse management.

Warehouse Management

Factory Automation

Smart City Solutions
